As a “Resource Person”
As a “Volunteer”

CONTEXT

Climate change intensifies the frequency and impacts of hydro-meteorological hazards. India is exposed to a wide range of natural hazards such as cyclones, droughts, landslides and earthquakes which worsens the life situations of the people with food insecurity, loses to infrastructure and poor human health and wellbeing.

India’s 14% of the population is undernourished (FAO, 2020) and malnutrition and food insecurity are highly prevalent in the remote rural regions. Indian States such as Assam, Bihar, Orissa and West Bengal are highly vulnerable to disasters, malnutrition and other social deprivations. Therefore, building resilience to disasters, ensuring access to food provisions, nutritional supplements and other welfare schemes are the prime focal themes of the BMZ Global programme.

THE PROGRAMME

BMZ Global Programme India is a community-led partnership model hosted by Caritas India with the support of Federal Ministry for Economic Cooperation and Development (BMZ), Government of Germany and Caritas Germany. By focusing on four development themes at a large: Resilience to natural calamities, enhanced Nutritional and Food Security, Social Inclusion and strengthening civil society learning, the programme aims at improving the life situation of the particularly marginalized population of eighteen identified districts in four Indian States.

Caritas India along with her twenty-three partner organisations are implementing the programme in 18 districts covering 260 villages in the Indian states of Assam, Bihar, Odisha and West Bengal towards contributing to the targets of the Sustainable Development Goals 2 (Zero Hunger), 10 (Reduced Inequalities) and 13 (Climate Action).

OUR ASPIRATION

The excluded communities who are vulnerable to disasters, malnutrition, and food insecurity enjoy enhanced quality of life.

OUR GEOGRAPHY

Caritas India in coordination with development organisations and other stakeholders, work towards empowering the most vulnerable and socially disadvantaged communities in the following ways:

1. COVID 19 emergency support to marginal farmers, migrant labours and frontline workers
2. Trainings to community and government stakeholders on disaster resilience, food security, and social inclusion
3. Public awareness campaigns through Information, Education & Communication resources
4. Develop disaster management plans to improve disaster resilience among vulnerable communities.
5. Promote sustainable and replicable models to address food insecurity and malnutrition
6. Strengthen stakeholder coordination to address issues on food security, social inclusion and disasters
7. Networking & dialogue with key stakeholders to enhance national policies and programmes
8. Introduce and strengthen the participatory monitoring tools and practices for better service deliveries

OUR APPROACH

A Multi-Layered approach at Micro-Meso-Macro Levels

Caritas India in coordination with development organisations and other stakeholders, work towards empowering the most vulnerable and socially disadvantaged communities in the following ways:
